Features & Benefits of NetTeller

Loan Redraw

This facility provides registered users online access to the Loan Redraw service. Conditions apply.

Email Maintenance

You can maintain your own email address for electronic receipts for your transactions.

Linked Accounts

Ideal for Members with more than one Membership: view and transact on other eligible Memberships under the one NetTeller Membership number and log in code.

View a Statement

This function now displays transaction data in true statement format.

Internal Funds Transfer

To save time when sending funds to another Northern Inland account using NetTeller, you can use the Internal Funds Transfer option. This is instantaneous so the funds are available to the other Member straight away. You cannot debit the other account by using this facility, only credit.

Funds Transfer External (FTE) Enhancements

Establish, edit and cancel future dated and reoccurring transactions. You are now able to edit your FTE history.

**Funds Transfer
External BSB
Validation**

Individual payees have been replaced with a generic description: Funds Transfer External (FTE). This change does not impact on FTE transactions as the BSB number is now validated prior to sending the transaction, eliminating the extra step of selecting the institution from the drop down box for new payees. The only payees listed are those you have previously used or added. You may also delete or edit your listed payees if required.

**BPAY® Biller and
Transaction
Maintenance**

Establish, edit and cancel future dated and reoccurring transactions up to 366 days in advance. You can also edit your BPAY history.

Change of address

Submit your change of address and other personal details to Northern Inland online via the secure email connection once you have entered NetTeller.
